EDUCATION

Pune Vidyarthi Griha's College of Engineering

Bachelor of Engineering in Information Technology CGPA: 8.43/10

Nashik, Maharashtra

2023 – 2027

TECHNICAL SKILLS

Languages: Java, JavaScript, Python, C, C++

Frontend: HTML5, CSS3, React.js

Backend: Node.js, Express.js

Database: MongoDB, SQL

Tools: Git, GitHub, VS Code, Postman, Vercel, Netlify, Streamlit

PROJECTS

Tiny Blog | *React.js, Node.js, Express.js, MongoDB*

- Developed a full-stack blogging platform with secure user authentication.
- Implemented CRUD operations for blog creation, editing, and deletion.
- Integrated MongoDB Atlas for cloud database management.
- Built REST APIs using Express.js and connected the frontend with the backend.

Student Placement Prediction | *Python, Machine Learning, Streamlit*

- Built a machine learning model to predict student placement outcomes.
- Performed data preprocessing, feature engineering, and model evaluation.
- Developed an interactive Streamlit web application for predictions.
- Visualized prediction results for improved user understanding.

Easy Rent | *React.js, CSS, JavaScript*

- Designed a responsive house rental website with modern UI.
- Implemented property listings, search, and responsive navigation.
- Deployed the project on Vercel for public access.

INTERNSHIP

Web Development Intern

2025

Cognifyz Technologies

Remote

- Developed responsive web pages using HTML, CSS, and JavaScript.
- Worked on frontend development tasks and improved UI responsiveness.
- Collaborated with mentors to complete assigned development tasks.

Data Science Intern

Jan 2026 – Apr 2026

Supratech Solutions

Nashik, Maharashtra

- Completed a 2 month offline internship in Data Science, working on real-world data analysis and machine learning projects.
- Performed data cleaning, preprocessing, feature engineering, and exploratory data analysis (EDA) using Python, Pandas, and NumPy.
- Built, trained, and evaluated machine learning models using Scikit-learn for prediction and classification tasks.
- Deployed machine learning applications using Streamlit for interactive predictions and user-friendly interfaces.
- Used Jira for task management, sprint planning, and project tracking while collaborating with the development team.
